Summary

Final-year B.Tech (AI & Data Science) student graduating 2027, targeting Software Engineer Intern roles. Hands-on builder across full-stack development, AI/LLM systems, and workflow automation, with 210+ LeetCode problems solved and 10+ shipped projects.

Education

SRKR Engineering College, Bhimavaram

2023–2027

B.Tech in Artificial Intelligence & Data Science

CGPA: 8.50

Technical Skills

Languages: Java, Python, JavaScript, SQL

Backend: Spring Boot, Node.js, Express.js, REST APIs

Frontend: React.js, HTML5, CSS3

AI/LLM: LangChain, LangGraph, RAG, Gemini API, n8n

Databases: MongoDB, SQLite

Tools: Git, GitHub, Postman, IntelliJ IDEA, VS Code

Core: DSA, OOP, DBMS, Operating Systems

Experience

Independent AI & Full-Stack Developer

2025–Present

- Engineered 17+ AI automation workflows integrating Gemini API, Gmail API, Telegram API and REST APIs using n8n.
- Developed 10+ software projects spanning full-stack web development, backend services and AI-powered applications.
- Architected AI applications using LangChain, LangGraph and Retrieval-Augmented Generation (RAG) for document intelligence.
- Designed and tested 5+ REST API endpoints using Spring Boot, layered architecture and Postman.
- Managed version control across 10+ projects using Git and GitHub.

Projects

Document AI RAG Assistant

Python, LangChain, Gemini, ChromaDB

- Built an AI assistant for semantic PDF search and context-aware question answering.
- Integrated document chunking, vector embeddings and ChromaDB retrieval with Gemini-generated responses.

AI Internship Auto Applier

n8n, Gemini API, Gmail API

- Automated internship applications using AI-generated personalized emails.
- Integrated Gmail API and Google Sheets into an end-to-end workflow, reducing repetitive manual effort.

Goodreads REST API

Java, Spring Boot

- Implemented CRUD operations using Spring Boot following layered architecture.
- Designed and tested 5+ REST API endpoints with Postman using object-oriented design principles.

Developer Portfolio

React, Express.js, MongoDB

- Designed and deployed a responsive portfolio showcasing 10+ software projects and coding achievements.
- Integrated backend APIs to dynamically display projects, skills and coding statistics.

Achievements

- Solved 210+ LeetCode problems with a maximum coding streak of 35 days.
- Built 17+ AI automation workflows integrating multiple third-party APIs.
- Developed 10+ software projects using Java, Spring Boot, React, Node.js and AI technologies.

Certifications

- Backend Development with Node.js – NxtWave
- Frontend Development with React.js – NxtWave
- Programming Foundations with Python – NxtWave
- Introduction to Databases – NxtWave
